Toronto, August 21, 2007:

Firwin Corp – New Distributor in Newfoundland.

Firwin Corp, a Toronto-based manufacturer of removable insulation blankets, is pleased to announce the recent appointment of a new distributor for Newfoundland & Labrador.

Air Cooled Engine Service, a St. John's, Newfoundland, diesel engine distributor and service provider, has added Firwin's insulation products to its product line.

"The continued growth of the offshore oil and gas industry, with its ripple effects to other sectors of the local economy, such as marine and on-site power, made Newfoundland a natural choice for us to have local representation", said Paul Herman, Firwin's president.

"We have been active in Newfoundland in the past, especially when the Marystown shipyard was building the platform for Hibernia", notes Paul. "Our hope is that having local representation with a reputable company the likes of Air Cooled Engine Service will allow us to be more responsive to the varied needs of the Newfoundland economy".

About Firwin Corp:

Founded in 1982, Firwin Corp is a manufacturer of removable insulation blankets. The company's focus is to provide insulation solutions to industries using diesel-powered engines and equipment. Industries that Firwin services include power generation, off-road and on-road equipment, gen-set, mining, forestry, marine, and the military. The company provides removable insulation blankets for both OEM and end-user applications.
